

Local Emergency Planning Committee July 18, 2017 - Continued

New Business

Presentation by Kristine Treadway of Thrive Life foods. She provided information on food preparation and storage of Thrive Life foods for emergency situations or to have in your home for everyday consumption. The food is freeze dried and dehydrated. It is not genetically modified at all and there are not additives. The food is delicious, fresh tasting and quick to prepare – add water, and it takes approximately 4 minutes to rehydrate. Samples of corn, green beans, pineapple, raspberries, chicken salad, and macaroons were provided. For more information, Kristene can be contacted at 425-308-8850 or by email at Kristine@treadwaythrive.com.

Recorder: Genelle Hurta

Next Meeting: August 15, 2017 -- Brazoria County Sheriff's Office
