

# WESTERN REGIONAL COUNTERDRUG TRAINING CENTER

## Patrol Officer Response to Street Drugs

**Designed for:** Law enforcement officers and military personnel directly involved in counternarcotics missions; with an emphasis on civilian law enforcement

This course is designed to enhance the ability and skills of all attendees to identify, detect, apprehend and successfully articulate the drug trafficker, distributor and the drug impaired person. This includes the DWI or the drugged driver; the calls for service where persons are involved in disturbances; juveniles using drugs on school grounds or domestic violence; it should be used on the confidential informant being utilized in a narcotic investigation and all other enforcement needs where the person or persons are under the influence of a drug. The concept and strategy in this program of instruction uses the structured, in depth coverage of the 8 drug categories, to include the Drug Abuse Recognition system and other advanced techniques as a means of legally apprehending the drug manufacturer, distributor and specifically the user. DOJ research indicates that this counterdrug-specific course is not a commonly available subject area in LE basic training programs. Course meets purpose and intent T-32 USC 112 as amended for NGCS and DASD (CN&GT) FY19 Guidance for NGCS. Without NGCS, this course would not be available to law enforcement agencies with limited training resources. Military led with contract support. Patrolling techniques supports elements listed in Army Techniques Publication (ATP) 3-39.10, "Police Operations".

Course Length: **4 Day / 32 hour**

Cost: **FREE** to Class Participants
