A DYNAMIC RESPONSE TO ACTIVE SHOOTER EVENTS

8HRS

TCOLE #5309

The information obtained in this class will educate you of the magnitude of the Active Shooter Events and the importance of the telecommunicators' effectiveness in gathering detailed information. You will learn the definition of an active shooter while gaining knowledge of what on scene responders roles are in an active shooter event. You will learn the difference between hostage and barricaded events, also learning places where active shooter events occur while gaining knowledge of specific events that lead to need for active shooter training. You will learn strategies in describing a scene at an active shooter incident and as well as what information needs to be disseminated to first responders and victims.
